

Provider Communication

Subject: Communications Organization E-mail	Priority: High
Date: September 12, 2003	Message ID: ACSBNR-09122003-2

Dear Provider:

Many claims submitted after April 1st incorrectly denied for these Health Check exception codes (edits):

- 6006 (Complete Health Check Screen Not Allowed for the Same Date of Service as this Procedure Code)
- 6007 (Procedure Code Not Allowed For the Same Date of Service as a Complete Health Check Screening)
- 6208 (Normal Health Check Screening Not Allowed on the Same Date of Service as this Procedure Code)
- 6209 (Office Visit Procedure Codes not Allowed on the Same Date of Service As An Abnormal Health Check Procedure Code)
- 6005 (Duplicate Health Check Screen Not Allowed)
- 6091 (Only One Complete Screening Allowed per Screening Sequence)

ACS is working quickly to resolve this situation; these exception codes will remain off until this problem is corrected. The Department of Community Health intends to Mass Adjust these claims as soon as this function is available; however, this may take several weeks. Therefore, we are offering you the option of resubmitting your claims while these exception codes are temporarily off. If you have any questions and/or concerns, please contact Adriane J. Saunders-Small or Patricia Ware at 1-800-377-3557 (pware@dch.state.ga.us and asmalls@dch.state.ga.us).

A different problem was identified with reimbursement of Health Check claims for Rural Health Clinics (RHCs) and Federally Qualified Health Clinics (FQHCs). As a result, these providers should contact Adriane J. Saunders-Small or Patricia Ware @ 1-800-377-3557 (pware@dch.state.ga.us and asmalls@dch.state.ga.us). Provide the name of your practice, your provider number, and contact information (including contact name and telephone number). **Note:** RHCs and FQHCs should not resubmit your Health Check claims at this time.

Thank you for your continued participation in Georgia's Medicaid/PeachCare for Kids program.

Sincerely,

Department of Community Health
